Your sleeping comfort for now and later

**Circular sleep:
your adaptable, personal comfort
year after year.**

Your sleeping comfort for now and later

Circular sleep: your adaptable, personal comfort year after year.

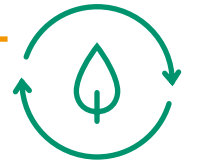

As situations change, vel_you changes with you. Easily adjust your mattress at any time as your needs change. Due to its modular design, this can be done in a jiffy! As such, we extend the life of your mattress considerably! Experience superior, personalised sleeping comfort year after year. This way you get to dream contentedly in your ideal bed every night, and save a lot of money during its lifetime besides. Your day has never got off to such a good start!

Superior comfort year after year.

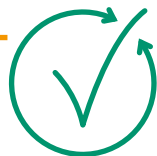

Buying a new mattress is an important long-term purchase. With vel_you, however, you significantly extend the life of your mattress by exchanging parts. This gives you a consistent level of comfort, and saves a great deal of money too. Our durable assembly method allows you to customise and upgrade your mattress at any time. The hardness of your mattress? An extra layer of comfort? In this way you get to enjoy **superior sleep comfort in a budget-friendly way. Year after year.**

Circular sleep creates value for you.

Millions of mattresses end up in landfill every year. Yes, you read it right! Millions! Traditional mattresses cannot be recycled. High time to do something about it! Discover our vel_you mattress: **all materials are reusable, sustainable and recyclable.** Even at the end of this mattress' life, **each component still has value** and can be repurposed.

Enjoy our 60-day comfort guarantee.

Changing a part? No problem! You can customise your mattress **free of charge for up to 60 days after purchase.** After that, you can continue to count on our ongoing service to keep your mattress to your liking.

Why vel_you ?

Superior comfort

A life without sleep issues? A dream, surely? Not at all: with vel_you this becomes a reality! No compromises on comfort or wellbeing (or that of our planet). By using high-quality materials and our patented technologies, we guarantee superior sleep comfort.

Modular sleep technology

Glue-free production makes our products modular and ecological. By banning adhesives from our mattresses, we optimise recyclability. Combined with our patented PoQQet spring technology, where coil springs are interconnected in perforated pouches without any use of glue, we recycle with our eyes shut. This modular design allows you to customise and upgrade your mattress at any time. This way you not only extend the life of your mattress, but you also enjoy a consistent level of comfort.

Optimal ventilation & hygiene

Each night you lose about 350 ml of fluid! It is important therefore to sleep on a well-ventilated mattress that systematically wicks this moisture away. The modular, glue-free construction of the vel_you mattress ensures a continuous supply of fresh air. In turn this ensures an optimal microclimate and perfect hygiene.

Durable, carefully selected materials

To ensure quality and to reduce our carbon footprint, we only use durable, high quality materials that we have meticulously selected. Our vel_you mattress thus contributes to better wellbeing: yours and the planet's.

Your sleep coach

Be sleep aware! You can also choose to add our built-in sleep sensor to your mattress. With our mobile app, you can then monitor and improve your sleep quality. Look at your personal sleep behaviour, and share insights and tips with our community members.

Our vel_you mattresses

A circular way of life.

Because of our circular and not end-of-life vision, we treat our products differently. During their lifetime, the beds and mattresses can be upgraded and modified as much as you like, while the materials remain **reusable, durable and recyclable**. At the end of their lifespan, each component remains valuable and can be reused.

1. PES textiles
Fibres or granules for new polyester fabrics
2. LATEX
Gymnastics mats or carpet liners
3. PP
Granulate for new plastic products such as storage boxes, flower pots and watering cans
4. LDPE
Granulate for new packaging films
5. METAL
Products made of recycled steel

vel_you

An advantageous price in combination with Icon, Sense or Omni collections.
